

Düzeltilme Metni / Corrigendum to:

ÇELİK, Necmettin, “The Effects of Terrorist Attacks on Regional Economic Growth in Turkey”, *Journal of Security Strategies*, 2019, 15 (32): 605-630 (Published: 31 December 2019)

On page 624, in Table 3, *System GMM Panel Model Results* were incorrectly listed by one-step estimation but could have been two-step estimation¹. The revised table is as follows:

Table 3.
System GMM Panel Model Results (two-step)

26 Regions 2005-2014	Dependent Variable: $y_{i,t}/y_{i,t-1}$
$y_{i,t-1}$	-0.1***
<i>POP</i>	0.1
<i>PCI</i> _{HUMAN}	0.06***
<i>EDUCATION</i> _{HIGHER}	-0.04
<i>TERROR</i> _{ATTACKS}	-0.03***
Constant	0.11***
AR (1) stat.	-3.52 [0.000]
AR (2) stat.	-0.25 [0.799]
Sargan Test stat.	14.22 [0.287]
Hansen Test stat.	15.30 [0.226]
Number of Instruments	18
Number of Groups	26
Number of Obs.	234

Note: *, **, *** symbols stand for a 10%, 5%, and 1% level of significance, respectively. Statistics in parentheses () stand for robust standard errors, statistics in brackets [] stand for *p*-values.
